

Feb 10, 2013

Dear Ringette Player:

Are you planning to attend a university or college in Ontario this fall? Did you know there are a number of universities in the province that have ringette teams? Or that there is a national university ringette championship each year called the University Challenge Cup? Yes, there is an opportunity to play ringette at any of the universities shown on this letter.

Thanks to the dedication and work of students and other volunteers, and through the support of the Ontario Ringette Association over the years, university ringette is alive and well in Ontario. In fact, it has been growing rapidly!

Although heading off to University can seem overwhelming, playing the sport you love at the school you attend can be very comforting, and the beginning of some new friendships. University ringette programs are affordable and can be worked into the busy schedule of a student. Some clubs even offer two levels of play - allowing you to choose the level of commitment you are comfortable with.

We know that studies come first!!

If you want more information, contact one of the volunteers or visit the websites shown on the other side of this letter. Many clubs can accommodate players from a nearby college.

Learn and Play!!

Attending a college or university that does not have a team? Want to start a team? Contact any of the volunteers listed on the back for advice!

University Ringette - Learn and Play!
